

BASMIDA itself has plays it roles in encouraging and giving opportunities for the drug dependents to manage their small business by sponsoring materials and equipment such as:

- ♥ Grass cutting machine
- ♥ Water guns for car wash

Female drug dependents were sponsored to join life-skills

Courses such as:

- ♥ Body & beauty massage
- ♥ Sewing & embroidery
- ♥ Hand-craft

They offer these services to family members and friends of course at an inexpensive rate. Although these income are not enough; at least they now have something, something very important ie they have their self esteem and back to society.

The drug dependents are given chances to learn computer in Which 10 units of computers sponsored by local private company were install for these who are interested in IT & ICT at BASMIDA house.

*These are the ways to enhance their future and brighter

undertaking.

At the same time they were also exposed to many other

Important occasions youth national day to boost up their

self- Esteems and confidence.

Lastly, I would like to add in order for successful integration to

society former drug addicts must have

- ♥ Continuing family support and love in a caring environment
- ♥ Counseling for family members
- ♥ Have their self esteem back and self respect brought by “having a job”, not just relying on hand-out of financial assistance from government agencies like the Department of Community Development
- ♥ To bring up the drug dependents back to community is EVERYONE RESPONSIBILITY, I am sure they all be alright and they will also together with us in combating drugs.

Thank you!
